Ricetrasmittitore Per Switch IPTV (8314xx), RJ-45

Modulo SFP (Small Form-Factor Pluggable) 10/100/1000TX con connettore RJ-45 che offre una opzione in rame per estendere la rete fino a 100 metri.

Art.831505

ID.NR	ATR-RJ
EAN13	8424450173800

Distingui per

- Modulo SFP
- Cablaggio strutturato 10/100/1000TX
- Per connessioni fino a 100m
- Connettore RJ-45

What is a SFP?

The Small Form-Factor Pluggable (SFP) devices are adapters that generate an interface to allow access to an Ethernet signal through Optical Fiber. These devices can be connected to the inputs of different Ethernet and GPON equipment, allowing the transmission/reception of the information by connecting to single-mode or multi-mode fiber or Ethernet cables.

Among the advantages of using SFP modules, we can highlight the reduction of space, lower energy consumption, or the increase of transmission distances.

Which SFP do I need?

Based on the devices to which they are connected, the transmission speed, or the type of cable used, several options are available in the whole range of media converters. The compatibility between the SFPs and the different Ethernet and GPON equipment is described below.

Reference	769520	769210	769212	769214	769410	769411	769412	769413	769414	769150
