7-in-1 combiner 19"-Rack installation

Device that allows the combination of T.OX modules without Z output loop through, providing an optimal C/N for headends with high channel density.

Ref.565002

Art.Nr

U19M71

EAN13

8424450181560

Main features

- Equipped with a test output (-20 dB)
- High rejection among inputs
- The front panel eases connection

Application example

(Click to see the picture)

Technical specifications

Frequency range	MHz	5 ... 40	40 ... 450	450 ... 750	750 ... 1000
Max. insertion loss	dB	11.5	11.5	11.8	12
Min. isolation	dB	20			
Test port	dB	20			
Input/Output return loss	dB	>18			
Impedance	Ω	75			
Protection index	IP	20			
Operating temperature	°C / °F	-5 ... 45 / 23 ... 113
