Carrying case H30 Series

Case with dimensions 340 x 286 x 104 mm that allows housing and carrying H30 series field meters.
This case, made of black opaque plastic, has two locks at the top to offer more security when it is transported. The inside is cover of hard polyurethane foam, which provides an outstanding impact resistance, while minimizing the falling risks.

It is possible its use to carry:

- H30 series field meter
- Power supply
- Shoulder strap
- Bag with connectors set
- User manuals and data sheets
