Top Tray with 4 fans for Rack 19" – 800mm and 1000mm depth, 780m³/h

4-fan tray that is installed on the top of a rack cabinet to force the cooling of the structure. This creates an air stream inside the cabinet, facilitating heat dissipation from the electronic components installed inside and maintaining a suitable temperature range. Mounted on a square structure compatible with 19" 600x800mm, 800x800mm and 800x1000mm racks, it includes screws for fixing.

Ref.533176

Art.Nr

MSR-L800

EAN13

8424450237656

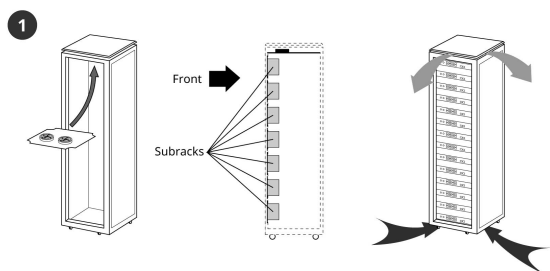

Highlights

- Four fans with a powerful air flow: 780 m³/ hour
- Simple installation: screws are supplied for the installation of the fan
- Resistant tray made of 1mm thick steel
- Connector: IEC C14
- Dimensions (W x D x H): 451mm x 563mm x 50mm

Additional information

Mounting details

Fans are located in a screwed tray at the top of the

rack, in this way they extract the hot air released by the equipment inside the rack and expel it through the slits at the top. Thus, the fans force air circulation, the new one entering through the bottom of the cabinet.

Technical specifications

Number of fans		4
Voltage max.	Vac	240
Input voltage	Vac	220 ... 230
Mains frequency		50 Hz / 60 Hz
Max. current 1 fan	A	0.08
Max. current 4 fan	A	0.32
Max. power consumption	W	74
Installation type		Ground / Ceiling
Protective housing		Yes
Air flow	m³/h	780
Noise emission	dBA	61
