Professional cable stripper For coaxial cable or data cable

Professional cable stripper with two joint blades: the first is used to cut the sheath, and the second to cut the dielectric. Used to cut a coaxial cable or a data cable in a single step. Equipped with an indicator for cable diameter (Ø 4.3 mm...7 mm) and an adjustment wrench; it is also suitable for both PVC and PE sheaths. Supplied in individual bags.

Ref.2145

Art.Nr

FCS10

EAN13

8424450134986

Additional information

(Click to see the picture)

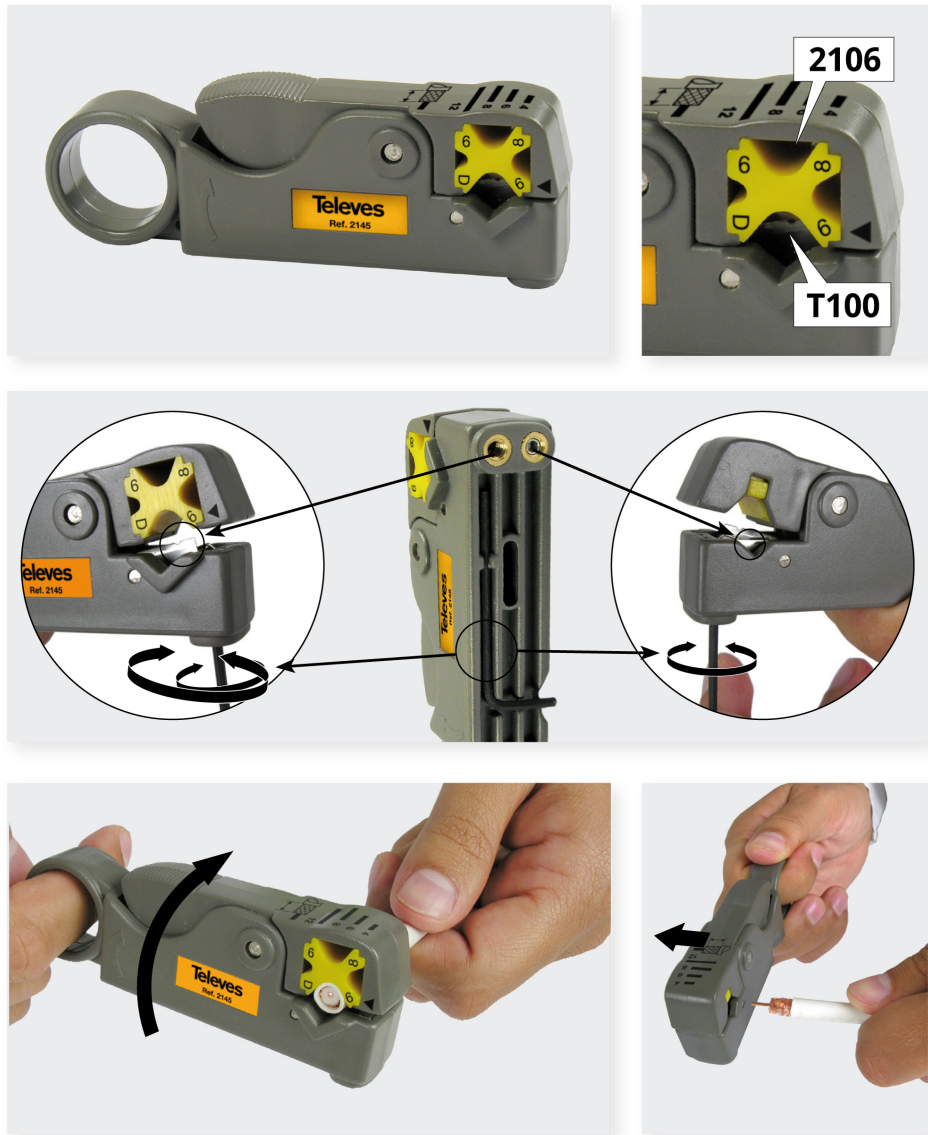

Mounting details

1. Identify the appropriate opening for the cable to be stripped.
2. Open the tool and adjust the blades with the adjustment wrench.
3. Insert the cable as per the drawing on the tool. Turn the cable stripping tool clockwise several times.
4. Remove the cable from the tool. The cable is ready.
