Replacement Battery H30 Series Field Strength Meters

High quality Li-Ion battery, in conjunction with an advanced low power consumption technology, provides enough juice for even the largest jobs. Unlike other batteries on the market, this battery reliably withstands numerous charging cycles. In addition, with a one-hour quick charge, it can provide up to almost three hours of extended meter operation.

Ref.593202

Art.Nr

H30-AKKU

EAN13

8424450170090

Highlights

- H30 Series Field Strength Meters compatible
- Li-Ion battery (7.2 VDC, 2600 mAh)
- >4 hours of battery range (without LNB powering)
